"AMERICA'S FAVORITE FLOWERING TREE"

Pink Flowering Dogwood

SPECIAL PRICES

Garden Clubs

WHITE FLOWERING DOGWOOD

One of the most beautiful of all our native trees. Flowers are large, white and produced in clusters before leaves appear; the flowers are followed in the Fall by numerous red berries and Autumn color of foliage is quite brilliant. A fine specimen tree for lawn. Attractive when planted with Red Bud.

DOGWOOD-PINK FLOWERING

(*Cornus Florida Rubra*.) This unique tree is rapidly becoming the most popular of the FANCY FLOWERING TREES. It is called the Aristocrat among the finest plantings in America. This small, uniform tree is literally covered with large, sparkling, rose-red flowers often measuring three to four inches in diameter before the leaves appear in the early spring. Its grayish-green foliage makes it attractive during Summer, and in early Autumn the foliage turns to a glistening rich crimson. Our select trees are propagated from buds taken from fine specimen trees which have the largest and most vivid colored blooms. The tree is extremely hardy and will thrive in most sections of the United States. Our trees will often bloom the same season planted. The Red Flowering Dogwood is conceded to be the most outstanding and the most distinct flowering tree in America. This year we are able to price this magnificent tree in reach of all. The following size trees are all large, branched, transplanted trees.

SENSATIONAL! NEW!

Almey-Flowering Crab

Almey takes its place as the most beautiful flowering crab in America. The tree is upright, vigorous and hardy. Almey blooms young. Each spring the two year old trees in the nursery are covered with blooms. Almey is the only variety that does this. It is hardy and will do well in any location. The fruits are maroon, and last into the winter season.

Red Bud

Also called the Judas Tree. One of the oldest trees known. It's beauty is unexcelled in the early spring when the rose-pink blossoms literally cover the trees before the leaves appear. The heart-shape leaf is about the most beautiful leaf of any tree.

CRAPE MYRTLE

BLOOMS CONTINUOUSLY FROM MID-SUMMER TO FROST. IMMENSE, ATTRACTIVE, BRILLIANT FLOWERS FOR THREE MONTHS.

Crape Myrtle, the South's most beautiful Shrub, can now be grown successfully in the North. We have secured a strain which is much hardier. In the extreme Northern States, grow it just like Everblooming Roses, giving it Winter protection by mounding up dirt about 8 inches high before severely cold weather. In Spring, uncover. Like Roses, Crape Myrtle makes its blooms on new wood and if the tops are killed back to the ground, it will send up new tops in the Spring, which will be covered with huge blossoms from July to frost. Select
